## SUMMARY

Frontend Developer specializing in React.js, Next.js, TypeScript, and Tailwind CSS. Expert at building responsive, high-performance web applications with clean, scalable, and maintainable code. Focused on creating intuitive, accessible, and user-friendly interfaces that deliver excellent UX. Also skilled in blockchain development on Ethereum -writing secure, gas-optimized Solidity smart contracts and dApp integrations using Ethers.js.

## TECHNICAL SKILLS

- **Languages & Technologies:** HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, TypeScript, Solidity, Web3.js, Ethers.js, Git, GitHub

## PROFESSIONAL EXPERIENCE

### Internship, Orcadev Technologies

Sep 2025 - Present

- Contributed to OptoPump, a token launch platform on Pump.fun, handling both frontend development and WEB3 integration.
- Refactored legacy CSS into modular Tailwind components, improving UI consistency for multiple projects.

### Internship, CodeAlpha (Remote)

July 2025 - Sep 2025

- Delivered monthly projects combining UI development and blockchain integration, building responsive frontends and seamless blockchain features.
- Coordinated with distributed teams, ensuring timely and high-quality results.

## PROJECTS

### Decentralized Crowdfunding Dapp (FYP)

Built an end-to-end Web3 crowdfunding platform using Solidity and React, enabling users to create campaigns, connect wallets, and donate securely on Ethereum. Integrated MetaMask, Ethers.js, and IPFS for decentralized storage, showcasing full-stack blockchain development. Ensured transparent, trustless transactions and a seamless user experience.

## EDUCATION

### Bachelor of Computer Sciences (BSCS)

Sep 2021 - July 2025

University of South Asia

### Intermediate in Computer Sciences

May 2019 - Aug 2021

Forman Christian College (FCCU)
